

LUCY M. BADEN

Senior Research Assistant

EDUCATION:

B.S. Carnegie Mellon University, Statistics, 2014

FIELDS OF SPECIALIZATION:

Exploratory data analysis, data visualization, statistical modeling and computing, website development and maintenance.

PROFESSIONAL HISTORY:

Ms. Baden joined Sociometrics Corporation in 2014. As a Senior Research Assistant, she is responsible for supporting Principal Investigators with the evaluation of research studies. She has contributed to data collection and evaluation for the HIV / AIDS Prevention Program Replication and Adaptation (HAPPRA) Online, assisting in a research study on the impact and effectiveness of an online community supporting evidence-based interventions for HIV, STI, and teen pregnancy prevention. Ms. Baden also serves as an archivist for the Data Archive on Adolescent Pregnancy and Pregnancy Prevention. Her archiving work has focused on preparing data for ready public use in a variety of formats, including SAS and SPSS files, as well as compiling documentation to address the methodology of the data.

In addition, Ms. Baden is responsible for developing and maintaining a number of Sociometrics webpages, and updating them as necessary with new data sets, products, and content. She has worked on developing project websites in HTML and CSS, editing the shopping cart and content of Sociometrics' main commercial webpage, and moderating community-of-practice websites.
